only two estates in the English parliament, lords and commons. Thus the AN ALARMING STATEMENT phuse of the three estates, which had a CONCERNING WOMEN.

HOW BAD HABITS ARE FORMED.

The New York Tribune says: "The habit of taking 'headache powders' is increasing to an alarming extent among a great number of women throughout the country. These powders as their name indicates, are claimed by the manufacturers to be a positive and speedy cure for any form of headache. In many cases their chief ingredient is morphine, opium, cocaine or some other equally injurious drug having a tendency to deaden paid. The habit of taking them is easily formed, but almost impossible to shake off. Women usually begin taking them to relieve a raging headache and soon resort to the powder to alleviate any little pain or ache they may be subjected to, and finally like the morphine or opium fieud, get into the habit of taking them regularly, imagning that they are in pain if they happen to miss their regular dose."

In nine cases out of ten, the trouble is

In nine cases out of ten, the trouble is in the stomach and liver. Take a simple laxative and liver tonic and remove the offending matter which deranges the stomach and causes the headache. Dr. Pierce's Pleasant Pellets are composed entirely of the purest, concentrated, vegetable extracts. One Pellet is a dose; sugar-coated, easily swallowed; once used, always in favor. They positively cure sick headache and remove

tack of the headache. It usually comes on in the forenoon. At my dinner I eat my regular meal, and take one or two of Doutor Pierce's Pleasant Pellets immediately after, and in the course of an hour my headache is cured and no bad effects. I feel better every way for having taken them no bad effects. I leer better every way for having taken them-not w. se, as is usual after taking other kinds of pills. Pleasant Pelof pills. 'Pleasant Pel-lets' are worth more than their weight in gold, if for nothing else than to cure headache."

belonging to J. L. Haigh, his partner. When starting home in the afternoon he walked off with Haigh's umbrella, leaving his own, which Haigh had to use, as it was raining hard. On opening the old cotton affair Haigh noticed a piece of white tape sewed on the inside near the top, and on going to a light read "Samuel J. Tilden, Gramercy park, New York." The next day he returned it to the same corner and said to Mr. Hewitt, "This is Mr. Tilden's umbrella

Sunshine and Disease. It is rather surprising to be told that sunshme is not always a promoter of health, and that London fog may be a I am in disguise. In experiments by D. Renzi gainea pigs incentated with tulerculosis died after 24 to 89 days when kept in glass boxes in the sunshane, but survived only 20 to 41 days in opaque wooden boxes. This makes it evident that sunshine is a material aid in combating consumption. In a later investigation by Dr. Masella, however, guinea pigs were inoculated with chol era and typhoid bacilli respectively, when it was found that previous expos ure to sunshme increased the susceptibility to both diseases, while exposure

NEVADA STATE JOURNAL

FRIDAY, SEPTEMBER 26, 1895.

THE HOUSE AND SILVER.

The "Sound Money" Committee of the New York Chamber of Commerce has been polling the House of Representatives on the money question. The canvas shows 83 members for free coinage, 216 opposed to it and 52 whose views are not known. Of the SS who favor free coinage 51 are Democrats, 30 are Republicans and 7 are Inde-

The House of Representatives consists of 356 members. In the next House there will be 245 Republicans, 104 Democrats and 7 Independents. Out of 245 Republicans only 30, so far as known, are for free coinage, and of the 104 Democrats 51 are known to be for free coinage. In the last Congress which expired by constitutional limitat on on the 4th of Harch, there were 237 Democrats and 87 Republicans. The best that Congress could do for silver was to pas the bland seigmorage bill, but enough Democrats voted with the Republicans to a istain the President's veto of that bill Now the Republicans will have nearly as large a majority in the next Congress as the Democrats had in the last and only 30 of them are known to be for free coin-

How in the face of such facts can a person who sine rely believes in the removetization of silver support either of these parties and pretend to be consistent? Those who expect office do so, but they are not expected to be sincere or consistent. They want office and are not particular whether silver is remonetized or not if they get it. But the great majority of the voters do not permit themselves to be deceived by those who do.

WILL THERE BE ANOTHER BOND

The question now being asked throughout this broad land is, "Will there be another bond issue?" The reply is, "Ask the gold syndicate." There is no person not in the confldence of the gold trust that can answer the question. The President cannot do it and the Secretary of the Treasury cannot do it. It all depends upon whether the syndicate finds it convendepends upon whether they find it the meeting: mor, profitable to force a bond issue November.

NEWSPAPERANCHIVE®

The smallest bound book in the great collection of miniature books owned by the New York Library society is a campaign document issued in 1852. It bears not only the distinction of being the smallest volume in the great collection referred to, but has been pronounced by ex erts in booklore to be one of the ti-1 ast books in existence. It contains but 14 leaves, each of which is closely printed on both sides in microscopic type Each leaf is 1 \(\) inches in length and seven eighths each in width. The t the page bears the following anscrip
